dynamicuno@gmail.com: Oh shit

dynamicuno@gmail.com: Wicked

dynamicuno@gmail.com: This is the kind of thing that needs to happen

me: huh?

me: the guide?

me: working with a couple of guys who wrote something similar after starting up Chanology

me: but they never finished it

me: our goal is to put out an operational manual that will give people what they need to start up their own activist/information war groups

dynamicuno@gmail.com: Excellent

me: <http://pastebin.com/H1NEgdfj>

me: early version

dynamicuno@gmail.com: And necessary

me: includes links to tools

dynamicuno@gmail.com: Oh wow, you weren't kidding, tons of links

me: yeah

me: trying to disseminate them as widely as possible

me: get people trained for what's clearly becoming a wider war

dynamicuno@gmail.com: Not sure how useful

dynamicuno@gmail.com: ravers will be but I will pass along

me: our intent is to make them useful

me: activate them, train them, organize them

me: it's a matter of honest rhetoric combined with expertise and presented in a viable package

dynamicuno@gmail.com: Indeed, good point. We can give them the tools to be useful.

dynamicuno@gmail.com: Well, some of them lol
